REPORT OF PROGRESS BY THE BUILDING COMM. FOR OLD ROCHESTER JUNIOR HIGH

The committee working with the architects, Drummey, Rosane and Anderson, have just about completed the Preliminary Design phase. In most school building programs this is the stage when the building committee decides that the plan is the one they want and the architect starts drawing the detailed plans for the contractors to bid.

At ORR, however, because the three towns have established a maximum allowable cost of $2,400,000 for the completed building the committee must determine whether the preliminary plan can be built for this amount. Accordingly, it has instructed the architect to make a determination of the probable cost

arts, music, art rooms and administrative offices on the first floor. Two of the planned classrooms are each equal in size to four normal rooms. These will have moveable screens as room dividers that will allow the division of the rooms into an infinite number of spaces. For instance on one day a room may be set up so that 100 pupils receive a lecture from one teacher and then on subsequent days the space be divided so that four teachers would each have 25 students to discuss the lecture in four normal size areas. This arrangement was requested by the school committee in order to better implement the newer concepts of team teaching and large group instruction.

The actual location of building on the ORR site is still being considered. Test borings to determine the soil conditions have not been completed. The area under consideration is to the left of the present building. This area is now wooded. The committee plans to leave a 100 foot wide band of trees between the building and Route 6.

Also being studied by the Committee is the type of fuel to be used for heat. Consulting Engineers have a made a very comprehensive study of the probable cost of oil, gas and electric heat which shows at present fuel rates, the difference in annual operating cost to be very small. Some other fac-

tors that must be considered, however, are the ecological considerations of burning fuel oil, the need for a tall chimney (estimated at 80 feet under new state regulations), how fuel costs may change in the future and the need to accommodate an addition to the school at some future date.

As planning progresses through the fall months, the Committee plans to issue subsequent progress reports. The date for opening the school of September, 1972, requires the start of construction early next spring. At present, the project is on time.

WOMAN'S CLUB MEETING

The Mattapoisett Woman's Club's first meeting of the 1970-1971 season was very well attended with a number of guests present plus 24 new members. They, together with the regular members, enjoyed first a very sumptuous pot luck luncheon and then the meeting which followed. Mrs. Albert Furnans, president of the club, welcomed everyone to the luncheon and invited the new members to form a reception line and and the regular members to greet them.

Following this, the president brought to order the business meeting. Reports were read and the chairman of each department was introduced and several announced their plans for future meetings. Dates for these will be in the club bulletin.

Onward to The Goal!

EXCITEMENT MOUNTING AS INDEX MOVES UP

The Mattapoisett Bandstand Committee is very pleased to report the recent jump the thermometer has taken. The thermometer which is affixed to a column post on the old bandstand at Shipyard Park indicated the progress of the fund-raising campaign to "Build a Better Bandstand". A strong appeal is now being made, urging all community-minded folks to contribute this coming week if they have not done so as yet. A final concerted effort could well cause that index to leap to $6,000, the campaign goal!

Responding with great enthusiasm have been the many groups of children, from several neighborhoods, who have held all manner of events in order to raise money. The most recent group to present its proceeds to the Bandstand Committee is that which held a "Neighborhood Carnival" at 27 North Street. In charge of the event were Andrea Nelson, Moira, Amy and Sara Moynihan, Heidi and David Perkins, Leslie Chase, John and Tom Marvin, Maureen Jones and David Demski. The "Neighborhood Carnival" proceeds netted the total amount of $24.03.

The town-appointed members of the Bandstand Committee who are conducting this campaign are: Mr. Bruce Rocha, Clerk of Construction; Mrs. Louis Corey, Jr., secretary-treasurer; and Mrs. Alden S. Kinney,

Mrs. Ruth Heath, 27 North Street, Mattapoisett, has been picked to serve as a juror at the Civil Session in Plymouth beginning on Tuesday, October 13th.

Two jurors were picked to serve on the Criminal Session in Brockton starting October 6th. They are Armand Texeira, 11 Parker Street; and Wayne Bailey, 3 Hillside Avenue.

St Anthony's Guild

The St. Anthony's Woman's Guild opened the season on September 16th at the Youth Center. A Mass was celebrated by Father Raphael, followed by a buffet dinner. The speaker for the evening was Mrs. C. Donald Edwards. It was a most rewarding evening for all as Mrs. Edwards showed various slides of flowers and nature study.

The next meeting will be on Tuesday, October 6th, (please note change of day), at 7:30 P.M. at the Youth Center. Every woman of the parish is invited to attend, whether or not a member. Father Raphael will lead and explain the Rosary at this time.

The guest speaker of the evening will be Mrs. Jeanette Gignac of the YWCA, demonstrating the Art of Yoga. The aim of Yoga is to reach a peak of physical, mental and spiritual health.

Those who wish to participate should wear non-constricting garments, such as slacks, leotards, etc. and bring a blanket, pad or towel to put on the floor. All other women should plan to attend and watch the instructor as the benefits from Yoga are many, and this program should make for an enjoyable evening for all.

Refreshments will be served by Mrs. Clayton King and committee.

OR OVER VOKE

It's been a long road for the Bulldogs but Saturday ended with that warm glow of victory. A year of conditioning, training and hard work, with key players back in good health, brought the Bulldogs the reward that eluded them for a whole year. The promise displayed at the Wareham Jamboree has jelled and the first game victory is a welcome start to the '70 season. The team, offensively and defensively, in the second half, generated strength and visibly gathered confidence. It was a different Bulldog team going off the field. You could feel the poise building through the whole second half.

The first half of the game was a well matched stand-off. Both teams demonstrated the ability to mount drives and score. Voke

recovered an Old Rochester fumble on the opening kick-off and scored on a pass from Bastoni to Pope. The point was missed. OR's Knapton returned the kick-off from the 19 to the Voke 44. Sullivan and Knapton moved the ball to the 3 and Tim Reilly carried it in.

An interception by Richie Silvia gave the

Dave Fortin of Voke shown receiving pass near the OR goal line. Moving in are Paul Soares and Richard Reilly, Bulldog defenders.

ball to OR on the 29. A beautiful pass from Reilly to Silvia was caught at the 15 and Richie went in to score, making the score 12 to 6.

Voke struck back with a pass from Bastoni to Bouchard who went in for the TD. The half ended with the score tied 12 to 12.

The second half was dominated by the Bulldogs. Richard Mott ran for 27 yards. Sullivan and Reilly and Mott took it to the 4 and Reilly scored to make it 20 to 12. Reilly scored again by a drive up the middle that would not be denied, to make it 28 to 12. The final score was a repeat 34 yard drive up the middle in 3 plays. Tim Reilly made the TD. Richard Reilly scored the extra points. The final score was 36 to 12.

The Bulldogs showed strength offensively and defensively. The team stopped Voke cold in the second half and ran with great power in the brutal heat. It was a great start for the season.

The plants that Mr. Souza obtained from a local nursery are of a special variety called "Beef Heart" tomato plants. He fed them with rose food and they started to grow and grow, reaching a 9-foot height before the great weight of about 130 tomatoes began to weigh them down. He has them tied to the building behind and to stout stakes driven into the ground. It is safe to assume that tomatoes will do well with rose food. Mr. Souza has found, also, that these giant plants have no worms on them in a season when most growers are plagued with these pests.

An Extra Push

AN OPEN LETTER TO PARENTS

You hear a lot of talk these days about drug abuse, crime in the streets, hippies, yippies, and so on. These things haven't come about by accident, but probably because somewhere along the line someone just didn't care enough to get involved with children at a critical time in their lives.

But did you know that right here in this town, there is a program for girls, 7 to 17, whose foundation is based on elements of developing high character and promoting service to God, community, and country?

Not many people seem to realize that Girl Scouts do more than just sell cookies; when in fact they are always working in small and big ways, and having fun as well. Recently Girl Scouts in Mattapoisett have assisted in shellfish propagation, anti-litter campaigns, and river cleanup, and they are always looking for service projects. Many of the girls have spent several fun-filled days on bike hikes, cookouts and weekend camping trips.

Here is a chance to involve your daughter in wholesome, worthwhile activity. But she may need an extra push from parents to join anything which may be deemed as "square" by her peers. It is our job as parents to defeat this most unfortunate attitude among many children toward character, service and leadership. These are, after all, the things that help to make our New England town a good place to live.

How about It? Urge your daughter to join, and become a part of Scouting yourself if possible. It is rewarding to touch the lives of the girls. Remember, there's always enough time for something that's really worthwhile.
